

Folding instructions

Red Crowned Toadlet

Scientific name: *Pseudophryne australis*

Conservation status in NSW: Vulnerable

Distribution: Sydney basin

Length: Less than 30mm

Colour: Dark-brown to black

Distinguishing features: Reddish-orange patches, one between the eyes and one along the rump. It also has a white patch at the base of each arm.

1 Start with a rectangular sheet of paper, white side up and the frog's eyes looking upward. Fold it in half, and open out again.

2 Fold both top corners to the opposite edge of the paper. Your creases should look like this.

3 Where the diagonal creases meet in the middle, fold the paper backwards, crease well and open.

4 Hold the paper at the sides, bring these points down to the centre line, then flatten. The creases should do most of the work here!

5 Fold the uppermost triangles up to the top point.

6 Fold sides in to the centre line.

7 Fold bottom of model upwards so the end sits in the centre of the top diamond.

8 Now fold the same part downwards, in half.

9 Turn over and your frog is finished! To make him jump, press down on his back as shown.
