6. Grant category you are applying for?	Environmental Conservation Grant

Environmental Conservation Grant

7. Name of project?	Regeneration & replanting of a section of Blue Gum High Forest in Turramurra Memorial Park.
8. Project details?	Regeneration assistance from a contractor involving weed removal, replanting & general improvement.
9. Proposed works must be outlined in detail below.	Remove weeds, protect existing native plants & replant appropriate native species, particularly shrubs for small bird habitat. Define the boundary of this area with logs.

	Follow up maintenance will be done by the group of 8 volunteers who have been working on the site for 12 years.
10. Outcomes should relate back to at least one of the grant criteria. Outcomes must be measurable and achievable. Projects that align with more than one or more of the criteria may be looked at more favourably.	The grant will rehabilitate part of a bushland area & increase habitat for native fauna including small birds. Being in such an visible position, the many visitors entering the park will see the improvements made. This will hopefully raise awareness of what can be achieved in restoring natural areas through focussed regeneration work. We hope to attract more volunteers to the group with such a significant improvement to this particular area.
11. What will a successful project look like and how will it be measured?	Far less weeds & much more healthy bushland. Increased activity by small birds. A much improved/more attractive entry to the park. Additional volunteers joining our existing group. A boost to the motivation & satisfaction of the existing group working on the site. Measurement by before & after photos to document improvement. Observation of any increased fauna eg small birds. An increase in volunteer numbers also will signify success.
