

Robert Street/Khartoum Avenue Conservation Area - C39 (KLEP 2015)

The Robert Street/Khartoum Avenue Heritage Conservation Area is significant as an intact portion of the Gordondale subdivision developed after 1883, illustrative of 1890s post-railway development in Gordon. It has a predominant Federation to Interwar period character, with some good examples of mid to late 20th century development. The heritage item Rosebank at 10 Rosedale Road falls within the area.
